ND FEARS Storm in France May Yet Be Stirred

> Germany Fears Opposition to Government May Influence the Passions of the People.

BERLIN, June 24.-The Foreign office officials are busily engaged in studying the French note on Morocco, the unusual length of which will necessarily delay answering it. Emperor William's absence at Kiel, the Foreign office says, will cause no delay in the negotiations, inasmuch as he is daily informed on all points and his decisions are promptly

Points Left Open.

As the study of Premier Rouvier's an-swer progresses, the fact becomes evi-dent that he has left many points open for discussion, and from which further negotiations can continue. The great-est difference now seems to be in agreeing on whether Germany and France shall seek to reach a separate agree-ment before the meeting of the conference, thus eliminating many matters from international action. Germany apparently holds the view that it would be an act of discourtesy to the powers which have already agreed to attend the conference if she arranged any mat-

ers beforehand with France. May Inflame the French.

Official circles here continue to follow the affair with keen interest, but with-out anything like excitement, much less belicose inclinations. They watch closely the movements of public opin-ion in France, and while it is recognized that the French people at large have grown much less chauvinistic toward Germany in the last few years, corre-sponding with the waning influence of the nationalist-clerical-military combithe nationalist-cierical-military combi-nation in French politics, some anxiety still prevails in Berlin lest the lenders of the opposition to the French Govern-ment again succeed in inflaming the passions of the people and arouse a storm which the republican leaders would be unable to withstand.

CALLS DOWN THE MEDICAL BOARD

Important Decision by Supreme Court.

Idaho Physician Oblains a Reversal in the Highest Tribuna!.

Act of Fining Him for Practicing Without a License Is Branded as Outrageous.

BOISE, 1da., June 24.-The Supreme court has rendered an opinion that will be of interest to every physician in the State and to many others. It is in the case of the State against J. B. Cooper of Blackfoot, who was fined \$50 for practicing without a license, as required by the provisions of the act of 1839 known as the medical law.

Fined in Probate Court.

Fined in Probate Court.

The defendant was fined in the Probate court. He appealed to the District court, where the case was submitted on an agreed statement of facts. Here again judgment was rendered against him and he carried the case to the Supreme court. This tribunal has reversed the judgment of the District court, holding that the defendant has a right to practice without a license because he was legally engaged in the practice of medicine and surgery under the act of 1887.

Should Have Granted License. Under the provision of the act of 1859, considered in connection with the agreed statement that the defendant was entitled to practice medicine in the State in 1851, the Court holds that the State Examining Board should have graned him a license without examination. In conclusion the Court says with reference to the medical board.

Deprived Him of Rights.

Deprived Him of Rights.

"It could not ignore the plain provisions of the life law and thereby make a criminal of a citizen of the State engaged in a legal and lawful business. If the Board of Medical Examiners could withhold a license from an applicant in this manner until he could appeal to the courts for redress, making a criminal of him every time he prescribed for or visited a patient, they could not only deprive him of valuable property rights, but ruin him in his profession and brand him as a criminal. This is neither the spirit or intent of the law."

Recuperative Effect.

Considered with reference to its re-cuperative effect, there is not so much good in the ordinary vacation as there is in a single bottle of Hood's Sarsapa-rilla. The latter costs \$1, the former— well, that depends; how much did your's cost last year? Hood's Sarsaparilla refreshes the tired blood, sharpens the dulled appe-tite, restores the lost courage,

Will Restore Revere Home.

BOSTON. June 24.—Prominent citizens of Boston have undertaken a movement looking to the purchase and preservation of the home of Paul Revere, which is situated in North square, this city. It is intended that the building, which is now used as a tenement house, will be restored to its original condition as nearly as possible. The house was built prior to 1681 and is the oldest in Boston, still standing in its antirety. BOSTON, June 24.-Prominent citi-
